

To Whom It May Concern:

I wanted you to know that I appreciate and value the service K-LOVE provides me as a member of my local community. K-LOVE provides positive encouraging programming that benefits the whole community. The music is uplifting and clean. Persons of any age can listen without fear of uncleanness or perversion. People's lives are changed by the message behind the music. It would be a shame for LPFM stations to override the important message of hope K-LOVE provides as well as the clean family-valued music it plays.

Thank you for your attention to this important matter.

Sincerely,
Chloe Maddox
